Contact Us

simple to use — simple to maintain — simple to justify

Finally an elegant solution to paperless board meetings at a reasonable cost.

- Easy to use – No need for a Webmaster
- "Paperless" and Less–Paper Board Packets
- Free Public Access to Public Information
- Public Notification of Meetings and Agendas
- Secured Access for Members
- Measurable Cost Savings
- 100% Return on Investment in Four to Six Months
- No Hardware Requirements

Who We Are:

- We are a community with a common interest
- We are individuals trying to make a difference
- We are interested in helping our environment
- We are trying to provide more money for our children's education

Who We Are Not:

- We are not a corporate entity selling high priced products
- We are not a non–profit promoting a cause
- We are not a radical group with an agenda

Our team envisioned a way to not only improve communication, but also reduce costs that can be channeled into funds for the education of our children.

From our vision schoolboardnet, a virtual community, was born.

Take a Tour

Visit our [schoolboardnet demo site](#) to take a full self-guided tour then [contact us](#) to schedule a webinar. You will be glad you did.

- Personal Notes on agenda for members
- Book agenda with "To Do" inventory tracking

[Contact us](#) to see if your state association provides discounts.

Board Policy Services are available as a separate service (quotes on request).

Why schoolboardnet?

1. Simple to deploy, use and maintain. Anyone who can use a browser or tablet is already trained.
2. Automatic notifications of changes to the site are sent to members and stakeholders. Eliminates e-mail.
3. No special software, licenses or IT support is needed. Just an Internet browser on any device.
4. Create board groups and committees for separate meetings, agendas and attachments

(in premium level).

5. Ready to grow when you are with no additional costs.

Real World Sites

Visit the public side of some live sites. Select agendas in the meeting archive.
